1. Press the thin end of the enclosed gap opener into the gap between the console edge panel frame and the padded console edge, to widen the gap. Peel off the cover of the adhesive tape on the ProClip.

2. Place the ProClip over the console edge so the left side of the ProClip attaches to the inside of the console edge.

3. Press firmly forward on the right side of the ProClip so the angled edge goes into the gap below the gap opener. Press until you see or hear/feel it snaps into place. Pull out the gap opener.

4. The ProClip is in place.
